

Paul Udor

Lagos, Nigeria

Summary

I'm Paul Udor, an SEO Content Strategist focused on building search-led content that moves the needle for modern digital brands.

I work with Marketing Directors, Content Managers, Affiliate Managers, SEO Managers, Editors, and Founders who need premium, reliable execution at a consulting-firm standard.

My approach blends human expertise with AI efficiency. I map opportunities, design workflows, and deliver clean, consistent outputs using elegant, scalable systems — always prioritising clarity, accuracy, and brand voice.

Work Experience

Goal	Remote, United States
<i>Football Betting Writer</i>	<i>February 2025 - Present</i>
- Produced SEO-optimized sports betting content for an international audience. - Edited and published content aligned with brand, compliance, and conversion goals. - Analyzed search intent and performance data to improve traffic and engagement. - Increased content accuracy by 15% by executing rigorous proofreading and fact-checking processes across a high volume of articles, ensuring strict adherence to editorial guidelines and regulatory compliance standards. - Conducted proactive content audits using tools like Google Analytics and SEMrush to identify and update 25+ stale or incorrect pieces of information monthly, boosting content relevance and improving search rankings for key terms. - Authored expert opinion pieces on highly specific subjects (sports betting market analysis) that positioned the brand as a thought leader, resulting in an average of 1,500 organic views per post. - Improved writing style and tone across the editorial team using tools like Grammarly Business and internal style guides, successfully reducing bounce rate by 5% due to enhanced content clarity and user experience. - Developed and implemented targeted, compliant Call-to-Action (CTA) language within new and existing content to strategically guide readers toward preferred sportsbook options, directly supporting business conversion goals.	
Revpanda	Remote, Estonia
<i>SEO iGaming Content Strategist</i>	<i>December 2022 - July 2026</i>

- Created high-converting casino, sportsbook, and crypto-gambling content.
- Optimized articles for rankings, click-through rate, and affiliate conversion.
- Collaborated with editors, designers, and developers across multiple projects.
- Generated over 50+ search engine-optimized (SEO) articles monthly for RevPanda, focusing on increasing organic search visibility and adherence to client delivery timelines.
- Developed in-depth, regulatory-compliant content, including detailed Casino Reviews, Slot Game Analyses, and iGaming-related articles, ensuring 100% accuracy regarding product features and jurisdictional guidelines.
- Conducted thorough primary and secondary research into highly specialized and competitive topics, utilizing professional databases and industry sources to guarantee content authority and factual accuracy.
- Performed advanced keyword research using tools like Ahrefs/SEMrush to identify high-value search opportunities, resulting in an average 12% monthly increase in organic traffic to assigned client websites and blog platforms.
- Maintained impeccable standards by applying rigorous editing and proofreading protocols, and formatting all content (via CMS platforms like WordPress) to strictly adhere to specific client and industry-style guides, minimizing post-publication revisions.

Knup Solution LLC

Remote, Florida, US

Sport And Gambling Writer

January 2022-March 2025

- Utilized advanced writing, editing, and proofreading competencies to produce engaging, error-free sports content under strict deadlines, maintaining an authentic brand voice and guaranteeing factual and ethical compliance.
- Led brainstorming sessions to develop new, useful content concepts, resulting in the creation of 3-5 new program types monthly that directly met client educational and engagement needs.
- Collaborated closely with editors and stakeholders to shape complex narratives and refine content for maximum impact, ensuring content was captivating, logically structured, and met all editorial guidelines before publication.
- Wrote and edited high-volume communications and visually impactful programs within assigned beat areas, contributing to a 10% increase in content consumption time due to improved structure and readability.
- Created and optimized all content for various platforms, including websites and online publications, employing modern formatting techniques (using HTML/CSS basics for presentation in CMS) to ensure a seamless digital user experience.

Intelfort Nigeria LTD

Lagos, Nigeria

Content And Digital Manager

December 2020- December 2021

- Led the analysis and reporting of digital campaign performance using Google Analytics and Tableau, resulting in the implementation of data-driven optimizations that increased program conversion rates by 18%.
- Managed, coached, and developed a team of four direct reports, establishing high-performance standards and fostering cross-functional collaboration with Sales and Product teams to align project deliverables with overarching business objectives.
- Created and deployed highly engaging, compliant content tailored for specific digital platforms (Web, Social, Email), successfully driving engagement and meeting distinct audience needs for 10+ client accounts.
- Conducted deep competitor analysis using SEMrush/Ahrefs to identify valuable backlink and keyword gaps, translating findings into actionable page optimizations that improved target page search rankings by an average of 3 positions.
- Designed and implemented comprehensive digital and social media strategies, including the development and execution of A/B testing protocols that optimized campaign elements and directly contributed to a documented 25% improvement in Marketing ROI (Return on Investment).
- Proactively tracked and analyzed emerging industry trends and platform changes, integrating new best practices into client strategies to maintain a competitive advantage and boost overall campaign effectiveness by leveraging timely insights.

Topcontent

Remote, Malta

Freelance Writer

August 2018- June 2021

- Maintained a zero-tolerance standard for errors by applying rigorous editing and proofreading skills, ensuring all content strictly adhered to company policies and editorial guidelines, thereby mitigating brand risk.
- Successfully managed competing deadlines to deliver high-quality, visually impactful programs and communications, consistently meeting content delivery schedules and maintaining a proven record of efficiency.
- Specialized in synthesizing technical terminology and industry jargon into clear, accessible, and engaging content, significantly improving comprehension and user experience for targeted audiences.
- Researched and authored diverse marketing materials, including original case studies, high-conversion emails, and newsletters, directly promoting services and capturing audience interest across digital channels.
- Strategically repurposed and optimized existing content for utilization across different mediums (blog to email series), maximizing the return on investment (ROI) of core assets and expanding reach.
- Consulted proactively with editors and subject matter experts to effectively shape the final narrative, eliminating errors and ensuring the content's tone and authenticity were customized to precisely meet and capture target audience interest.

Hustle Writer

Remote, Ibadan, Nigeria

DevOp Lead And Co Founder

March 2019- December 2020

- Served as a key contributor to Hustle Writers' mission to deliver top-tier, high-commodity content designed specifically to achieve high visibility and cut-through in highly competitive digital landscapes.
- Aligned content strategy with client objectives, consistently creating narratives that effectively voiced client ideas and measurably improved client chances of reaching, engaging, and converting their target audience.
- Contributed to a system that efficiently produced best-in-class content at scale, managing quality control and ensuring premium output remained accessible and affordable for a diverse client base.
- Demonstrated understanding of content as a crucial "digital commodity," applying knowledge of SEO and digital positioning to ensure all delivered work stood the highest chance of search engine success and longevity.

SS Digital SOLUTION

Remote, Ikeja, Lagos

Freelance Web Developer

March 2018- December 2020

- Developed and maintained client websites by utilizing core languages (HTML5, CSS3, JavaScript, jQuery) and frameworks, converting complex mockups into usable, cross-browser compatible web presences.
- Implemented and managed front-end infrastructure using leading CMS platforms including WordPress and HubSpot, ensuring robust functionality and intuitive content editing capabilities for end-users.
- Adhered to and implemented modern SEO best practices during site design, directly developing and integrating technical solutions (optimized page structure, semantic HTML) to achieve prominent search engine rankings.
- rigorous code validation on third-party integrations and performed debugging using specialized tools to eliminate critical flaws and glitches, resulting in 100% adherence to internal technical and security standards.
- Defined, translated, and leveraged user requirements into actionable project designs, strategically developing technical assets (e.g., custom landing pages) that enhanced user experience (UX) and accommodated specific content needs.
- Engaged directly with clients to plan site optimization, define technical requirements, and successfully resolve complex technical issues, providing detailed tutorials and training to improve end-user self-sufficiency and adoption.
- Utilized platforms like OpenCart and other e-commerce technologies to execute crucial line-code repairs and optimizations, directly improving corporate online presence and conversion pathways.

Unizone Group

Remote, Ilorin, Kwara

Web Developer

November 2014 - March 2019

- Possesses a foundation in self-directed programming and technical principles, enabling effective translation of complex

technical concepts into clear, accessible content for target audiences.

- Exhibits a strong "hunger for learning" and applying new methodologies, ensuring content strategies and technical communication skills remain current and aligned with emerging industry trends.
- Driven by the passion to develop functional and appealing assets that not only solve specific client problems but also foster positive community or user engagement.
- Highly sociable and works exceptionally well within cross-functional teams, contributing positively to project planning and execution to meet defined objectives and timelines.
